VOLUME 1 ISSUE 10

July 1999

SG NOTAM 99-005

A SG NOTAM was published 30 July on Vaccine Adverse Reporting System. This Risk Management tool should have been received already from MAJCOM's. This gives official guidance on when and how to fill out the VAERS form 1. If you did not get a copy please go to: <http://sg-www.satx.mil/moasgop/index/htm>. (This site was not working at the time I published this) It will also be posted next week on the immunization home page under official references. <http://wwwsam.brooks.af.mil/web/eh/html/immune.htm>

A Directory of Regional Facilities Available

Posted on the AF Immunization home page is the Regional break out of what base belongs to which Regional facility. <http://wwwsam.brooks.af.mil/web/eh/immdoc/allergy.htm> This break out also includes members assigned to that base as of 6 June 99. (Sorry no e-mail addresses) This posting does include DSN numbers and mailing addresses of the clinics. It is a first generation listing. Please take a moment to review it and ensure your base data is correct. If it is not, and I'm sure there are many, please contact me via e-mail with corrections. [<olaf.stoll@mirage.brooks.af.mil>](mailto:olaf.stoll@mirage.brooks.af.mil) This list is of A's only. If you are in the rank of E-6 and assigned to the Allergy/Immunization Clinic please let me know. The AFPC list did not include TSgt's due to them not being considered A's.

Pre-drawing Anthrax Vaccine

Anthrax is not to be pre-drawn. There is no data to support stability of the anthrax vaccine in the syringe for extended periods of time. This statement comes directly from AFMOA as well as USAMMA and the AVIP. This vaccine is not to be pre-drawn.

Rumor Control

SSgt Osier of Fairchild AFB brought to my attention that the newly published Retraining Advisory had 30 E-6 slots for 4N0X1A's! Sad but true this has been confirmed as an error on the part of DP. There are still no 7 level slots on the books for "A's".

WHMC Mixing Lab News

SSgt Claar, NCOIC of the WHMC Mixing Lab, asks that I pass on that there is no need to order new skin test trays. She will ship new trays to facilities within her region in the coming weeks.

TSgt "Odie" Stoll

"Attention to detail is a key to success, is it on your key chain?"
